

World Partnership Walk

Toronto Route Map

Downsview Park – June 1, 2025

The Toronto Walk route will follow Circuit Path, a six-metre-wide paved pathway that can accommodate strollers, walkers and runners. Complete a single loop of 2.7km, or double up and do it again. Whatever pace and distance you choose, let's step forward together!

Note: Circuit Path is fully accessible and AODA compliant. Motorized accessibility devices are allowed if operated under 20 km/h.
